

REMARKS

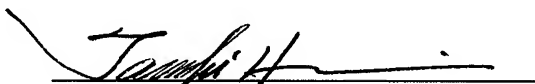

Objection to the Specification

The substitute specification is attached at Tab A. The corrections were made to correct obvious grammatical errors and inconsistencies and are believed to include no new matter. To comply with 37 C.F.R. §1.125(b)(2), Applicants also submit a marked-up copy of the substitute specification attached at Tab B showing the matter being added to and the matter being deleted from the English translation.

Claim Objections

Claims 1-10 are objected as including informalities as specified by the Office Action. Applicants have corrected the informalities in the above amendment.

Respectfully submitted,

Tadashi Horie
